AMERICAN PSYCHOLOGICAL ASSOCIATION

Many Ways to Learn

SECOND EDITION

A Kid's Guide to LD

By Judith M. Stern, MA, and Uzi Ben-Ami, PhD

Illustrated by Carl Pearce

“The first key to success is self-knowledge—especially for children with learning disabilities. In an extremely supportive and practical way, Stern and Ben-Ami explain the many ways that learning disabilities affect children at school, at home, and with friends. Reading this book will help children (and their parents!) feel better about themselves as they learn why some tasks are more difficult for them, and feel even better about themselves when they apply the hundreds of strategies to more successfully master life's challenges.”

—Ari Tuckman, PsyD, MBA,
Child and Adult Psychologist, West Chester, PA,
author of *More Attention, Less Deficit: Success Strategies for Adults with ADHD*

“The revised edition of Stern and Ben-Ami's book is excellent. It is laid out well with a clear division of subjects, easy-to-read bullet points, and appealing illustrations. A student with a Learning Disability should find it readily accessible as well as relevant and interesting. In addition, adults will benefit from the information, particularly the many suggestions for ways in which they can help their children. The authors also address social issues that are frequently serious concerns of LD children, and offer both comfort and suggestions.

Students, families and professionals will all benefit from reading Many Ways to Learn: a Kid's Guide to LD.”
—Kathleen Dellert Jones, MA, Tutor Coordinator, Master Tutor, The Kingsbury Center, Washington, D.C.

“Many Ways to Learn: a Kid's Guide to LD is a very helpful book for children with learning disabilities. It maps out a clear way to “climb the mountain” making it a very meaningful book. It is very organized and is an easy read book yet full of vital information. This book will give kids around the nation hope to succeed.”

—Gabriel Kohrman, middle school student

For a lot of kids, dealing with a learning disability can be like climbing a mountain. It can be difficult and overwhelming. But with the right tools, support, and guides, kids can successfully reach the top of their mountain.

This new edition of the classic book *Many Ways to Learn* is written for kids with learning disabilities reassurance and knowledge to live confidently with their disability. This book provides easy-to-use tips, information, and strategies for kids to take on their disability, as well as empowering them to feel better and more capable.

Updated and expanded throughout, *Many Ways to Learn*, Second Edition also includes information on how to involve counselors and parents as a supportive “climbing team” as well setting goals and specific tips for kids with each kind of learning disability. 112 pages. 7” x 9”. Full-color illustrations. Ages 8-13.

 AMERICAN PSYCHOLOGICAL ASSOCIATION

About the Authors

Judith Stern, MA, is an experienced teacher and educational consultant in private practice in Rockville, Maryland. She specializes in working with children who have learning disabilities and attention deficit disorder as well as with their parents and teachers. She lectures nationally to professionals and parents on learning and attention problems, as well as improving children's study and organization skills. She is the co-author of four children's books on LD and AD/HD and *The Dyslexia Checklist: A Practical Reference for Parents and Teachers*.

Uzi Ben-Ami, PhD, is a psychologist in private practice in Rockville, Maryland. He has worked extensively with children, parents and schools as a certified school psychologist, and child and family therapist. Dr. Ben-Ami has evaluated and treated children with learning disabilities throughout his career.

About the Illustrator

Hailing from the beautiful country of Wales, **Carl Pearce** claims to have spent the majority of his childhood outdoors and neck-deep in trouble. A rascal as a boy, he now enjoys spending time at the beach, drawing, doing photography, reading in the bath, and watching crazy movies. He doubts that he'll ever grow up!
